

Hawa acquires “Motion4”

The sliding door specialist has reinforced its capabilities with solutions for automatic sliding doors

Hawa Sliding Solutions AG acquired the “Motion4” brand from Linear Motor Applications S.L., based in Barcelona, Spain, in October 2025. The acquisition is based on a long-standing collaboration between the two companies involving the joint development of a new generation of linear motors. Under the umbrella of the specially established company Hawa Dynamics S.L.U., the Swiss sliding door specialist now intends to further develop systems for automatic sliding doors and continuously expand its expertise in this area.

“This step marks a strategic milestone that strengthens the innovative power of both companies and expands the international reach of our technology based on magnetic linear motor systems”, says “Motion4”. Since the company was established in 2008, it has relied on durable technology that makes precise and reliable sliding movements with quiet and smooth operation possible on the basis of compact drives.

The newly established company, Hawa Dynamics S.L.U., is not only taking over the developed product portfolio, but is also integrating the entire “Motion4” team, which will ensure that business activities will continue without interruption. Continuity in expertise and customer support will be guaranteed by the in-depth expertise and many years of experience of ten specialists.

Consistent focusing

The acquisition means that Hawa is taking another step in focusing its resources on its core business, and being a competent and versatile partner for its customers in the area of sliding door hardware for furniture and interior design. In October 2024 the company acquired Klein Ibérica, which is also based in Barcelona, a company that complements Hawa’s portfolio with folding and sliding door systems and also outdoor solutions, and is committed to sustainable and healthy interior design. “The combination of the strengths of our new group members will result in a future-oriented portfolio which will make our customers more successful and give them added value,” says Hawa CEO Ezequiel Di Claudio.
